PROJECTS

(VitaFitx : A Gym website template)——([GitHub](#))

Technology Used : HTML/ CSS / JavaScript

As a skilled web designer, I developed a cutting-edge gym website template that seamlessly blends form and function to deliver a dynamic online experience for fitness enthusiasts and businesses alike. This template is tailored to meet the specific requirements of the fitness industry, promoting healthy living and physical wellness.

(PhotoGallery : A photo gallery template)——([GitHub](#)) Technology

Used : HTML/ CSS / JavaScript

In my role as a skilled web designer, I conceptualized and developed a remarkable photo gallery website template that effortlessly combines aesthetics with functionality to provide an immersive platform for visual storytellers, photographers, artists, and content creators.
